WHO WE ARE

An engineering enterprise trusted for demanding work

Founded in Nagpur in 2014, Sunrise Constructions has grown into a ₹115 crore+ engineering and construction enterprise delivering landmark infrastructure with institutional rigor.

We work with prestigious clients including NHAI, NH-PWD, and the Irrigation Department — delivering highway packages, major bridges, lift irrigation schemes, residential colonies, and healthcare facilities across Maharashtra.

Our team of 250+ engineers, project managers, and skilled tradespeople combines modern project controls with hands-on field expertise. The result: disciplined execution, transparent reporting, and infrastructure built to perform for generations.

INTEGRITY

Commitments kept. No shortcuts on quality or safety.

ENGINEERING

Method-driven delivery against MoRTH & IRC standards.

PARTNERSHIP

The contractor clients call when a project truly matters.

Large-scale site execution across Maharashtra

WHAT WE DELIVER

End-to-end construction capability

From highways and bridges to irrigation, healthcare, and campus works — we self-perform critical packages and manage complex programmes with enterprise-grade controls.

01

General Construction

Structural, civil, and finishing works for landmark builds — RCC, steel, MEP rough-in, and architectural finishes with in-house plant and workforce.

02

Project Management

Owner's representative services with digital scheduling, earned-value tracking, procurement control, and transparent stakeholder reporting.

03

Design & Build

Integrated design-to-delivery for faster mobilisation, coordinated detailing, and single-point accountability from concept to handover.

04

Highway & Infrastructure

4-laning, white topping, bridges, FOBs, underpasses, and irrigation canals executed to NHAI / PWD / Irrigation Department standards.

05

Healthcare & Institutional

Hospital wards, colonies, and civic facilities built to operational standards with MEP, medical gas, and hospital-grade finishes.

06

Irrigation & Water Works

Lift irrigation schemes, feeder canals, aqueducts, and wildlife-sensitive alignments that protect habitats while serving agriculture.

FLAGSHIP DELIVERY

Projects that define our standard

Landmark packages for NHAI and state agencies — scale, complexity, and on-time execution.

MADC	CIDCO

Why clients return

- 95% on-time delivery culture with programme discipline
- 99% client satisfaction across completed packages
- Self-performed critical works with QA/QC rigor
- EPC capability for NHA and state highway packages
- Proven irrigation & wildlife-sensitive engineering
- Transparent reporting and single-point accountability
- Safety-first site culture — zero shortcuts

"The contractor clients call when a project truly matters."

— D ANANT REDDY, MANAGING DIRECTOR

NEXT CONVERSATION

Let's build something *that lasts.*

Whether you need an EPC partner for a highway package, a bridge specialist, an irrigation contractor, or a trusted builder for institutional works — we would be honoured to bid, partner, and deliver.
